2023 - 2024 Academic Year

THESIS

Syllabus

Course Description					
Name	Code	Semester	T+A Hour	Credit	ECTS
THESIS	ÇGLY2257820	Spring Semester	0+0	0	60
Prerequisites Courses					
Recommended Elective Courses					
Language of Instruction	Turkish				
Course Level	Second Cycle (Master's Degree)				
Course Type	Thesis				
Course Coordinator	Prof.Dr. Arzu YÜKSELEN				
Name of Lecturer(s)	Prof.Dr. Arzu YÜKSELEN, Prof.Dr. İbrahim Haluk YAVUZER, Assist.Prof. Feryal SAVCI				
Assistant(s)					
Aim	The aim of the course is to enable the student to acquire a certain knowledge, to conduct scientific research or study, to gain access to information, to evaluate and interpret information.				
Course Content	This course contains; Determination of the study topic,Screening of studies in the related field,Screening of studies in the related field,Screening of studies in the related field,Compilation of studies on the subject,Determination of purpose, problem and sub problems,Data Collecting,Data collecting,Data collecting,Discussion of data,Discussion of data,Discussion of data,Result and Suggestion,Presenting research.				
Course Learning Outcomes		Teaching Methods		Assessment Methods	
Identifies topics in the direction of theoretical and practical knowledge gained during master's education.					
By using research techniques, it selects the variables to be used in the research.					
Understands cause-effect relationships between variables.					
It forms the essays on research.					
Selects appropriate methods and measurement tools for research.					
Writes and interprets research findings.					
Develops research recommendation.					
Lists the resources used in the research according to international standards.					
Effectively sourcing and commenting resources in libraries and electronic environment.					
Teaching Methods					
Assessment Methods					
Lecture Schedule					
Sequence	Topics	Preliminary Preparation			
1	Determination of the study topic				
2	Screening of studies in the related field				
3	Screening of studies in the related field				
4	Screening of studies in the related field				
5	Compilation of studies on the subject				
6	Determination of purpose, problem and sub problems				
7	Data Collecting				
8	Data collecting				
9	Data collecting				
10	Discussion of data				
11	Discussion of data				
12	Discussion of data				
13	Result and Suggestion				
14	Presenting research				
Evaluation Methods		Weight(%)			
Midterm Exam		50			
General Exam		50
