

**School of Fine Arts Design and Architecture / Urban Design and Landscape Architecture**

**2024 - 2025 Academic Year**

**LANDSCAPE URBANISIM**

**Syllabus**

| Course Description   |  |                                |                         |                           |      |
|--|--|--------------------------------|-------------------------|---------------------------|------|
| Name   | Code   | Semester                       | T+A Hour                | Credit                    | ECTS |
| LANDSCAPE URBANISIM  | KTP3215172   | Spring Semester                | 2+0                     | 2                         | 4    |
| <b>Prerequisites Courses</b>   |  |                                |                         |                           |      |
| <b>Recommended Elective Courses</b>  |  |                                |                         |                           |      |
| <b>Language of Instruction</b>   | Turkish  |                                |                         |                           |      |
| <b>Course Level</b>  | First Cycle (Bachelor's Degree)  |                                |                         |                           |      |
| <b>Course Type</b>   | Elective   |                                |                         |                           |      |
| <b>Course Coordinator</b>  | Assist.Prof. Mustafa ERDEM   |                                |                         |                           |      |
| <b>Name of Lecturer(s)</b>   | Lect.Dr. Jale GÜREL  |                                |                         |                           |      |
| <b>Assistant(s)</b>  |  |                                |                         |                           |      |
| <b>Aim</b>   | The aim of the course is to examine and discuss current issues on the agenda of landscape architecture through the concept of landscape urbanism, a new urbanization strategy.   |                                |                         |                           |      |
| <b>Course Content</b>  | This course contains; 1. Week Introduction Course , 2.Week The emergence of the Concept of Landscape Urbanism in the historical process,3.Week The Place of Landscape Urbanism in Education and Research,4. Week Themes and contents in Landscape Urbanism,5. week Actors in Landscape Urbanism (designers, theorists, practitioners),6. Week Guest researcher presentation and discussions,7. Week Ecology and environment in Landscape Urbanism / Climate change,8. WeekEcology and environment in Landscape Urbanism / Climate change,9. Week Infrastructure transformation in Landscape Urbanism,10. Week Landscape Urbanism and Reclamation,11. Week Landscape Urbanism and nature within the city // Wildlife,12. Week Student presentations,13. Week student presentations ,14. Week student presentations. |                                |                         |                           |      |
| <b>Course Learning Outcomes</b>  |  |                                | <b>Teaching Methods</b> | <b>Assessment Methods</b> |      |
| Knows the issues of open-endedness and designing self-sustaining ecosystems.Explains process design and management, integration of transportation and infrastructure systems into landscape design.Recognize and explain the concept of ecosystem service.Knows and analyzes the support and formation of wildlife in landscapes.Develops ideas on the identification and sustainability of existing ecological resources.Discusses and analyzes the concepts that are on the agenda of landscape urbanism theory. |  |                                | 10, 13, 14, 16, 9       | A, E                      |      |
| <b>Teaching Methods</b>  | 10: Discussion Method, 13: Case Study Method, 14: Self Study Method, 16: Question - Answer Technique, 9: Lecture Method  |                                |                         |                           |      |
| <b>Assessment Methods</b>  | A: Traditional Written Exam, E: Homework   |                                |                         |                           |      |
| <b>Lecture Schedule</b>  |  |                                |                         |                           |      |
| <b>Sequence</b>  | <b>Topics</b>  | <b>Preliminary Preparation</b> |                         |                           |      |
| 1  | 1. Week Introduction Course  |                                |                         |                           |      |
| 2  | 2.Week The emergence of the Concept of Landscape Urbanism in the historical process  |                                |                         |                           |      |
| 3  | 3.Week The Place of Landscape Urbanism in Education and Research   |                                |                         |                           |      |
| 4  | 4. Week Themes and contents in Landscape Urbanism  |                                |                         |                           |      |
| 5  | 5. week Actors in Landscape Urbanism (designers, theorists, practitioners)   |                                |                         |                           |      |
| 6  | 6. Week Guest researcher presentation and discussions  |                                |                         |                           |      |
| 7  | 7. Week Ecology and environment in Landscape Urbanism / Climate change   |                                |                         |                           |      |
| 8  | 8. WeekEcology and environment in Landscape Urbanism / Climate change  |                                |                         |                           |      |
| 9  | 9. Week Infrastructure transformation in Landscape Urbanism  |                                |                         |                           |      |
| 10   | 10. Week Landscape Urbanism and Reclamation  |                                |                         |                           |      |
| 11   | 11. Week Landscape Urbanism and nature within the city // Wildlife   |                                |                         |                           |      |
| 12   | 12. Week Student presentations   |                                |                         |                           |      |
| 13   | 13. Week student presentations   |                                |                         |                           |      |
| 14   | 14. Week student presentations   |                                |                         |                           |      |
| <b>Evaluation Methods</b>  |  | <b>Weight(%)</b>               |                         |                           |      |
| Midterm Exam   |  | 50                             |                         |                           |      |
| General Exam   |  | 50                             |                         |                           |      |
