

**Vocational School / Management of Health Facilities**

**2022 - 2023 Academic Year**

**MEDICAL TERMINOLOGY**

**Syllabus**

Course Description					
Name	Code	Semester	T+A Hour	Credit	ECTS
MEDICAL TERMINOLOGY	SKİ1124400	Fall Semester	2+0	2	4
<b>Prerequisites Courses</b>					
<b>Recommended Elective Courses</b>	none				
<b>Language of Instruction</b>	Turkish				
<b>Course Level</b>	Short Cycle (Associate's Degree)				
<b>Course Type</b>	Required				
<b>Course Coordinator</b>	Lect. Bade Cevriye BAHTİYAR				
<b>Name of Lecturer(s)</b>	Lect. Nurcan OKCUOĞLU TOSUN				
<b>Assistant(s)</b>					
<b>Aim</b>	To teach the essential medical definitions and concepts regarding health.				
<b>Course Content</b>	This course contains; 1. Health concept and determinants of Health,2. Background of terminology,3. General rules in composing medical terms,4. General rules in composing medical terms,5. Terminology regarding musculoskeletal system (anatomy, physiology, diseases, diagnostic procedures),6. Terminology regarding gastrointestinal system (anatomy, physiology, diseases, diagnostic procedures),7. Terminology regarding respiratory system (anatomy, physiology, diseases, diagnostic procedures),8. Terminology regarding cardiovascular system (anatomy, physiology, diseases, diagnostic procedures),9. Terminology regarding body systems (anatomy, physiology, diseases, diagnostic procedures),10. Terminology regarding urinary system (anatomy, physiology, diseases, diagnostic procedures),11. Terminology regarding genital system (anatomy, physiology, diseases, diagnostic procedures),12. Terminology regarding neural system (anatomy, physiology, diseases, diagnostic procedures),13. Terminology regarding eye, ear-nose- throat structures (anatomy, physiology, diseases, diagnostic procedures),14. General evaluation.				
<b>Course Learning Outcomes</b>			<b>Teaching Methods</b>	<b>Assessment Methods</b>	
At the end of this course, the student:					
1. Discuss basic definition and concepts of health.			1, 3	A, C	
2. Define concepts of health and sickness.			1, 2, 3	A, C	
3. Evaluates the determinants of health.			1, 2, 3	A, C	
4. Describe the approach of the health development.			1, 2, 3	A, C	
5. Discuss health programs.			1, 2, 3	A, C	
6. Discuss significance, methods and uses of medical terminology.			1, 2, 3	A, C	
7. Express basic definition and concepts of medical terminology.			1, 2, 3	A, C	
8. Recognize elements of medical terms and compose medical terms relevant to the field.			1, 2, 3	A, C	
9. Distinguish the significance of medical terms in institutional communication.			1, 2	A, C	
<b>Teaching Methods</b>	1: Lecture, 2: Question - Answer, 3: Discussion				
<b>Assessment Methods</b>	A: Written Exam, C: Homework				
<b>Lecture Schedule</b>					
<b>Sequence</b>	<b>Topics</b>	<b>Preliminary Preparation</b>			
1	1. Health concept and determinants of Health	reading lecture notes			
2	2. Background of terminology	reading lecture notes			
3	3. General rules in composing medical terms	reading lecture notes			
4	4. General rules in composing medical terms	reading lecture notes			
5	5. Terminology regarding musculoskeletal system (anatomy, physiology, diseases, diagnostic procedures)	reading lecture notes			
6	6. Terminology regarding gastrointestinal system (anatomy, physiology, diseases, diagnostic procedures)	reading lecture notes			
7	7. Terminology regarding respiratory system (anatomy, physiology, diseases, diagnostic procedures)	reading lecture notes			
8	8. Terminology regarding cardiovascular system (anatomy, physiology, diseases, diagnostic procedures)	reading lecture notes			
9	9. Terminology regarding body systems (anatomy, physiology, diseases, diagnostic procedures)	reading lecture notes			
10	10. Terminology regarding urinary system (anatomy, physiology, diseases, diagnostic procedures)	reading lecture notes			
11	11. Terminology regarding genital system (anatomy, physiology, diseases, diagnostic procedures)	reading lecture notes			
12	12. Terminology regarding neural system (anatomy, physiology, diseases, diagnostic procedures)	reading lecture notes			
13	13. Terminology regarding eye, ear-nose- throat structures (anatomy, physiology, diseases, diagnostic procedures)	reading lecture notes			
14	14. General evaluation				
<b>Evaluation Methods</b>		<b>Weight(%)</b>			
Midterm Exam		40			
General Exam		60
