Assessment Methods	A: Traditional Written Exam				
Lecture Schedule					
Sequenc e	Topics	Preliminary Preparation			
1	Introduction to the course	Studying the related unit in the course material			
2	Runway Incursions	Studying the related unit in the course material			
3	Avoiding Miscommunication	Studying the related unit in the course material			
4	Ground Operations	Studying the related unit in the course material			
5	Ways of finding lost aircraft	Studying the related unit in the course material			
6	The use of Datalink	Studying the related unit in the course material			
7	Flight Control Systems	Studying the related unit in the course material			
8	Wildlife on the Ground and its effects on aviation sector	Studying the related unit in the course material			
9	Bird Strike and its adverse effects on flights	Studying the related unit in the course material			
10	Gravity	Studying the related unit in the course material			
11	Air Races and the descriptions of maneuvers	Studying the related unit in the course material			
12	The causes of Hydraulic failures	Studying the related unit in the course material			
13	Medical Emergencies on Board	Studying the related unit in the course material			
14	The use of medical equipment on board	Studying the related unit in the course material			
Evaluation Methods		Weight(%)			
Midterm Exam		40			
General Exam		60
